Dima Alexandrova is a skilled professional mediator. I have known Ms. Alexandrova for several years and I have had the pleasure of watching her develop her skills and knowledge. I began my relationship with her as her first Judge at the International Chamber of Commerce annual Mediation competition. She made quite an impression! She used that experience to launch her mediation career and eventually become a coach to future students.

Over the last few years, she has grown from a student into a respected colleague in the field of mediation. I am confident that she can provide professional mediation services to her clients and assist members of the community. She has a unique passion for mediation that is reflected in her continuing pursuit of knowledge, her mediation style and her mentorship of future leaders in the expanding field of conflict resolution.

Kind Regards,
